chicago, il, usa

Skills

Natural Languages: English, French (some), Spanish (beginner)

Formal Languages: C, C++, Javascript, Python, HTML/SCSS

Tools: Linux, Git, NGINX Node.js, MongoDB, Wordpress, SQL, three.js, Jekyll, Forestry

Projects

Lead Website Developer, *Code for Chicago* 2021- ongoing

Cannabis Equity Illinois Coalition

I've been volunteering with Code for Chicago as the lead developer on a new site for CEIC. Using Jekyll as the static site builder, I've integrated Forestry and manage the staging site with webhooks, Nginx and some node helper applications.

Jekyll/Forestry/HTML/CSS/JS

Education

Bachelors of Computer Science

2017 - 2020

Simon Fraser University

Work

Technical Service Manager

2008 - 2016

I managed and repaired coffee equipment (espresso machines, grinders, brewers etc) as well as roastery equipment (roaster, packing and filling machines etc. I was also responsible for managing a large roastery move, roaster refurbishment and custom software (programmed by others).

49th Parallel Coffee Roasters
